

Alfonso Jimenez

Skilled and trained graduate from Concord University (United States, Athens, WV) with a Computer Information Systems degree and a Business Administration minor, who has 2+ years of experience with the software development process with its corresponding practices, methods and techniques. Web and Mobile developer with 2+ years of experience (React Native, Java Script, HTML and CSS). Passionate for team-based projects, fast learner and problem solver that adapts to the business needs.

Education

08-2016 - 05-2019	Concord University In the Software Engineer class the software development process was learnt and applied to The Concordian(requirements, phases, documentation, etc). In the Operating Systems class the re-currency and parallelism terms were implemented to an instance of a custom made OS, including different functionality seen in classic operating systems such as: date, exec, aliasing, directory, etc.
01-2015 - 05-2016	Averett University In the Web Authoring & Office applications class different JS methods and events to make simple applications were applied to make different programs (calculators, games, , etc) In the Programming 2 class we used a .net environment to create different programs for specific applications (stadium seating calculator, graphics library, coordinate location, arrays, database imports, etc).

Experience

01-2017 - present	Software Developer <i>Producciones Móviles de México, México City, Remote</i> In charge of the server implementation and development using Linux. Credentials were granted for server technicians and the changes of stakeholders were delivered successfully, more specific details: <ul style="list-style-type: none">• Front end modified with JS and Node.js• Extended documentation provided.
08-2017 - 05-2019	Welcoming Center Technical Assistant <i>Concord University, Student Center & International Support Services</i> In charge of the safety & control of the desktop computers and Incoming Calls <ul style="list-style-type: none">• Assist callers with HW and SW issues and providing solutions• Maintain the computers in a pristine state: internally and externally• Access and manage programs, through given credentials the admin board• Visit classrooms and assist with troubleshooting (different devices)

Personal Projects

- PHP / VB.net / JS & HTML
Relaunched The Concordian
Implemented in WordPress with XAMPP
https://github.com/Alfonso-Jim/The_Concordian
- 2D Mario Kart**
Coordinate Location, Arrow Keys(Power-up detectors, etc.)
https://github.com/Alfonso-Jim/Mario_Kart_2D
- Glued Shoe Basketball**
Browser Based, controlled by user events
https://github.com/Alfonso-Jim/Glued_Shoe_Basketball

Sports and Student Organizations

01-2017 - 05-2019	Concord University Tennis Tennis Team Captain
05-2017 - 05-2019	Phi Sima Phi Member since 2017
